June 25, 2008

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# The Research-Practice Gap

- Why don't practitioners do what the research says?
- Why don't researchers study what really matters in practice?

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Session Objectives

- To explore collective solutions for building stronger research to practice to policy connections
- To share research related to building research-practice connections
- To challenge assumptions that impede connections

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Teachers/Practitioners, here is a question for you ...

- Where do you turn for help and information when faced with a practice dilemma?

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# How consistent is your response to those found in the literature?

<i>Authors</i>	<i>Discipline</i>	<i>Primary Source of Knowledge for Addressing Clinical Practice Issues</i>
Mattingly and Fleming (1994)	Occupational Therapy	Mentoring clinician
McKee, Witt, Elliot, Pardue, & Judycki (1987)	School Psychology	Talking with colleagues
Philibert, Snyder, Judd, & Windsor (2003)	Occupational Therapy	Continuing education Mentoring clinician

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# How consistent is your response to those found in the literature?

<i>Authors</i>	<i>Discipline</i>	<i>Primary Source of Knowledge for Addressing Clinical Practice Issues</i>
Rappolt & Tassone (2002)	Physical and Occupational Therapy	Informal consultation with peers Continuing education

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Faculty/Professional Development Providers, here is a question for you...

- What does research say about effective professional development approaches?

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Effective Professional Development ...

- Is **NOT** a one-shot workshop.
- focuses on professional practices and consists of content-specific rather than general instruction.
- is aligned with instructional goals, learning standards, and curriculum materials.
- is intense, sustained over time and includes guidance and feedback through methods such as coaching, consultation, or facilitated collaboration.
- takes organizational and systems issues into account.

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Researchers/Evaluators ...

- Some questions of concern ...
  - Are practices being promoted by professional development being implemented with fidelity?
  - Can effective practices be sustained over time?

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Factors that Affect Implementation

- Administrative supports
- Organizational structures
- Policies
- Resources
- Professional development
- Evaluation and data systems

(Fixsen, et al, 2005)

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Policy Makers

## Where do we go from here?

UNC

FPG CHILD DEVELOPMENT INST

# Content

# Context

# Connections

UNC

FPG CHILD DEVELOPMENT INSTITUTE

# Contextual issues are changing ways we organize and share content

- Emphasis on gathering & synthesizing practice knowledge
- Proliferation of EBP web sites

UNC

FPG CHILD DEVELOPMENT INSTITUTE

## Welcome to **WWC**

---

The What Works Clearinghouse (WWC) collects, screens, and identifies studies of effectiveness of educational interventions (programs, products, practices, and policies). The WWC regularly updates the WWC Technical Standards and their application to take account of new considerations brought forth by experts and users. Such changes may result in re-appraisals of studies and/or interventions previously reviewed and rated. The current WWC Standards offer guidance for those planning or carrying out studies, not only in the design considerations but the analysis and reporting stages as well. The WWC Standards, however, may not pertain to every situation, context, or purpose of a study and will evolve.

### What's New?

**NCER Releases Two New Practice Guides:** Sep 28  
**Encouraging Girls in Math and Science and  
Organizing Instruction and Study to  
Improve Student Learning**

Encouraging Girls in Math and Science is the second in a series of IES guides in education; Organizing Instruction and Study to Improve Student Learning is the third IES Practice Guide. [\(more info\)](#)

**WWC Releases New Intervention Report -** Aug 13  
**Success for All**

Success for All (SFA)® is a comprehensive school reform model that includes a reading, writing, and oral language development program for students in pre-kindergarten through grade eight. [\(more info\)](#)

**WWC Releases New Intervention Report -** Aug 13  
**Ladders to Literacy for Kindergarten  
Students**

The What Works Clearinghouse review in this topic area focuses first on early childhood education interventions (curricula and practices) designed for use in center-based settings with 3- to 5-year-old children who are not yet in kindergarten or children who are in preschool, with a primary focus on cognitive and language competencies associated with school readiness (language, literacy, math, and cognition). Interventions and studies with a primary focus on socio-emotional development and approaches to learning may be addressed in a subsequent phase of the review. The review also includes a focus on center-based early childhood education interventions designed to improve the school readiness skills of preschool children with developmental delays or diagnosed disabilities. These may be inclusive interventions used with all children or targeted interventions designed specifically for children with developmental delays or diagnosed disabilities.

WWC Intervention Reports provide all findings that "Meet Evidence Standards" or "Meet Evidence Standards with Reservations" for studies on a particular intervention. Intervention reports are created for those interventions that have at least one study that "Meets Evidence Standards" or "Meets Evidence Standards with Reservations." Intervention reports are one component of the decision-making process, but should not be the sole source of information when making educational decisions.

# Center on the Social and Emotional Foundations for Early Learning

## Pyramid Model

Promoting Social and Emotional Competence in Infants and Young Children

### WELCOME

Welcome to the new look of the CSEFEL website. We have many new materials and resources and have redesigned the site to improve the navigation. Please let us know what you think! Email us at [csefel@vanderbilt.edu](mailto:csefel@vanderbilt.edu)

The Center on the Social and Emotional Foundations for Early Learning (CSEFEL) is focused on promoting the social emotional development and school readiness of young children birth to age 5. CSEFEL is a national resource center funded by the Office of Head Start and Child Care Bureau for disseminating research and evidence-based practices to early childhood programs across the country.

This model to the left is referred to as the Pyramid Model for Supporting Social Emotional Competence in Infants and Young Children. We have developed extensive, user-friendly training materials, videos, and print resources which are available directly from this website to help early care, health and education providers implement this model.

### State Partnerships

We are very pleased to announce our partnerships with the following selected states:

Colorado	Iowa	Maryland	Vermont
North Carolina	Hawaii	Tennessee	Nebraska

Check out the website for **Technical Assistance Center on Social Emotional Intervention!**

### 2008 Addressing Challenging Behavior National Training Institute

This is not your typical conference. Come to Florida for intensive workshops where you can expect practical strategies for supporting a positive approach to social emotional development. Get real solutions to behavior challenges in early childhood settings. April 2-5, 2008. **Register Now!** Space is limited.

#### Sitemap

Welcome to the Center for Early Literacy Learning(CELL) Web site. CELL is a research-to-practice technical assistance center funded by the U.S. Department of Education, Office of Special Education Programs, Research to Practice Division. The main goal of CELL is to promote the adoption and sustained use of evidence-based early literacy learning practices by early childhood intervention practitioners, parents, and other caregivers of young children, birth to five years of age, with identified disabilities, developmental delays, and those at-risk for poor outcomes. CELL is a major initiative of the Center for Evidence-Based Practices at the [Orelena Hawks Puckett Institute](#).

The Center for Early Literacy Learning is gathering information from early childhood practitioners about the use of early literacy learning practices for young children. We are interested in what practitioners think is important in order to help young children get ready to learn to read, write, and spell.

Please consider filling out our survey in order for us to be sure we have a good idea of what you think. The survey should take no longer than 5 minutes to complete. Click the link below to begin.

### CELLpapers

[CELLpapers](#) are articles that provide background information about the conceptual frameworks used to guide Center for Early Literacy Learning activities and the results of evaluation and research studies conducted by CELL staff.

### CELLreviews

[CELLreviews](#) are practice-based research syntheses of early communication, language, and literacy development. These syntheses involve systematic analysis and integration of small bodies of research that have investigated the same or similar practices having the same or similar outcomes.
